

FIFTY-THIRD CONGRESS

Second Session.

WASHINGTON, March 31.—SENATE.—SPECIAL MESSAGE.—The senate met at 10 o'clock. Mr. Wadsworth, in the absence of Mr. McNamara, reported the third bill in the senate this day morning. The most important change made by the bill is in the sugar schedule. It provides that 100,000 pounds of sugar of 100 to 1 of 1 cent per pound be given on all sugars tested above 96 degrees by the polariscope test. The bill also provides for the removal of color. A new provision has been added in the bill providing that the word "valued," relating to the sugar schedule, shall mean "at wholesale price." Section 44 of the bill is stricken out. It provided that all allowances for goods imported shall hereafter be made.

HOUSE.—The treasury civil service appropriation bill was passed by the house Tuesday with a vote of 257 yeas to 127 nays. The bill appropriates for the general land office amended the provision of the act of 1901, repealing the act of 1890, which provided for the removal of Mr. Holman, and which was hitherto suspended by the senate. The bill was adopted by the committee at the suggestion of Mr. Holman, and which was bitterly opposed by the western members, was defeated in the house. The clauses which sought to require an accounting by the disbursing officers of soldiers' homes to the treasury department were also defeated. The bill was defeated by a majority of 10 yeas, fell under Mr. Black's point of order.

WASHINGTON, March 31.—SENATE.—SPECIAL MESSAGE.—The senate met at 10 o'clock. The president sent to the senate Wednesday afternoon the nomination of American V. Rice, of

filings were applicable to the case of simultaneous filing of a copyright and a patent application issued out of the government mint. The regulations went over without action on objection to the proposed amendments.

HOUKAT—The house spent five hours Thursday in efforts to assume the role of a quorum. The speaker, Joseph P. Kamp, called on the motion to take up the O'Neill-Jay bill, which would amend the copyright laws. The senators Livingston (dem., Ga.) renewed the force made by dem. filibustering was in place. The speaker called on the motion to suspend the rule requiring members to vote. But the chairman (Mr. Bailey, Tex.) declined to entertain the motion. The speaker then called for a conference on the adjourn over Good Friday, and the motion to adjourn early will be resumed Friday.

WASHINGTON, March 24—Senate—No session.

HOUKAT—The house committee on agriculture Friday presented the Smith act, which would prohibit the federal hatcheries from operating favorably. The bill, as reported, defines "options" and "futures," and provides that the committee on the bill should be required to write and signed in duplicate, and shall be subject to explicit terms in the time when the bill is introduced.

The company organized in the ward of this city to meet Coffey has been disbanded, the report being having discouraged the members.

Kentucky Girl Attempts Suicide.

WINCHESTER, Ky., March 27.—Miss Alice Crow, 15 years old, made two attempts to suicide at her home on a river, one with strychnine and the other with laudanum. Medical attention saved her life. The cause was a proof from her mother for carelessness. She still avers that she will kill her mother.

FRIDAY, MARCH 31, 1894.

ANNOUNCEMENT.

We are authorized to announce F. A. Jones as a candidate for County Judge, and to the action of the Republican Convention.

Senator Colquitt, of Georgia, is dead.

Joe M. Kendall and Representative Lisle are announced candidates for Congress in the Tenth Kentucky District.

There was to have been a meeting in Chicago last Friday, but it was postponed a few weeks' respite was granted for the purpose of investigating his sanity.

Letters and telegrams continue to pour in upon the President in increasing numbers suggesting that he should do with the Seigniorage Bill. It is said that requests for the veto of the bill outnumber requests for approval ten to one.

Members of social reform leagues in New York and Boston have been asked for the verdict of the jury in the Pollard-Breckinridge case, but have already passed judgment. The Boston League has adopted resolutions calling upon "the chivalrous people of Kentucky to retire W. M. P. Breckinridge to a private life of obscurity and oblivion." Copies of the resolutions are to be sent to all the newspapers of Kentucky. The New York League would go farther and expel the defendant from Congress. The President of the League says the House will be formally asked to take such action. The League also goes so far as to ask Mrs. Breckinridge to renounce her husband.—Courier Journal.

A number of the leading silver men of Congress called upon President Cleveland yesterday and made a powerful plea to him to sign the Seigniorage Bill. They spoke with great earnestness, and no effort was made to conceal a feeling that the present majority in Congress depended upon the President's signing the bill. It was urged that certain sections of the country accused the President of ignoring their interests. The President heard them through and in reply said that he regarded the question as one above majorities in Congress and above any personal or selfish consideration. His desire was to do what was best for the whole people. In considering the question he had known no section. The matter had been referred to him by Congress, and the responsibility he could not and would not evade. His decision would be simply a faithful execution of his duty.—Courier Journal.

If there is any one thing which Mr. Cleveland's record proves more strongly than any other, it is that he is actuated only by a sense of right in all his public acts. His actions in the many trying situations in which he has been placed are guarantees that in reaching a decision he is guided only by the interests of the whole people.

TRAD.

A cold wave has been hanging over us for a few days, and the prospect for peach is a gloomy one.

James Lovejoy is a candidate for constable in this magisterial district. Jim is a good Democrat, and well qualified for the place.

Miss Tennis Prince is attending the high school at Blaine.

W. H. Gibbs, of Oliveville, was here last week, on official business.

Wm. Walton is giving his house a new coat of paint, which adds much to the beauty of his dwelling.

Misses Sophie Muncy and Della Hays were visiting in a week.

John Hurchett has been from W. Va., where he has been engaged in timbering.

Jim Brown has returned from Kentucky, where he has been at the college.

New York City, March 26, 1894.

Ed. News: Yesterday was Easter and was a very rainy and disagreeable day; consequently our peregrinations and observations were much limited. Notwithstanding the disagreeable weather people turned out to church by thousands for no other purpose but to display their spring suits. On Easter here all doll the winter wear and put on their spring suits. It is a sight to a Big Sandian to go on Fifth Avenue here on Easter forenoon and see the elegance of dress there from the genuine dude to the grey-haired sage moving along ostentatiously to church, but as it appeared to me, simply vying with each other in elegance of attire.

We went to hear Rev. C. H. Parkhurst, President of the Association for the prevention of crime in this city. You have all heard and read much of him. There is infinitely more said of him here than of Talmage. His church is at the beginning of Madison Square. The exterior of the church is not imposing by any means, is rather old looking and low, except the spire, which runs up to an immense height. When you are inside you find two floors and finely furnished, but not especially elegant. All the pews are held by the congregation, so you are kindly invited to stand up until services begin and if any of the regular congregation fail to come you get a seat, and if they fail they kindly extend the same Christian tenderness to you in allowing you to continue to stand during services. All the church was beautifully decorated with flowers, and "oh, woman, lovely woman" generally admired on all occasions but when with the latest spring suit on, large bouquet and both hands full of flowers she comes rushing on a crowded street car with that style of strut and gaud which seem to say, "see me now," about three men are required to get up to give her room to sit down properly. When she "gets fixed" she looks at you with a disgusted and suggestive look as though she would feel better if you would just draw yourself up off the floor to the strap above your head that she might have a little more room for herself and her flowers. You realize you are but a tolerated nuisance—simply "not in it" and your admiration ceases to run as high as it is supposed to. The great quantities of flowers used to decorate churches yesterday are being taken to the various hospitals here this morning in buggy loads to cheer with their beauty and aroma the sick and distressed of those institutions.

Cough leads to Consumption, Kemp's Balm stops the Cough at once.

LICK CREEK.

DEAR ED: The quarterly meeting was held at this place Saturday and Sunday. Rev. Hamoy preached an excellent sermon to a very large congregation.

Albion Chapman, who is attending school at Bolts Fork, visited his parents Saturday and Sunday.

George Swetnam, of Wilbur visited friends at this place a few days ago. What's the attraction, George?

Henry Meek and Emerson Stratton, attended church at Louisa Sunday night. Boys, there must be some attraction!

Miss Ida and Edith Branham, and Miss Julia Copley, visited Nannie and Mary Shannon Saturday and Sunday.

Miss Lizzie Bartram, of Fort Gay, visited Miss Fannie Weltman last week.

W. D. Shannon, Miss Mary Shannon and Noy Jones are on the sick list this week.

A. L. Shannon is rafting a large amount of timber at the mouth of Drunken.

Miss Mary Thompson and John Bradley attended church at this place Sunday.

A. J. Muncy has returned from Cincinnati, where he has been on business.

Mr. and Mrs. John Hardwick, of W. Va., called on friends at this place Sunday.

A very sad accident occurred at this place Saturday evening. Millard Wallace, son John Wallace, of Clifford, accidentally shot himself while fooling with an old revolver.

He is now at A. L. Shannon's, unable to get home. He is now improving.

Several of the folks of Busseyville attended church at this place Sunday.

SPORTED COAT.

CHICK FOR HEADACHE.

As a remedy for all forms of headache Electric Bitters has proved to be the very best. It effects a permanent cure and the worst headache habitually yields to its influence. We urge all who are afflicted to procure a bottle, and give it a fair trial. In cases of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of this medicine. Try it once. Large bottles only fifty cents at W. F. Evans' drugstore.

EDMOND'S BRANCH.

Miss Carrie Browning, the belle of our vicinity, spent Sunday with the family of Melvin Browning, of Cat Bridge.

Marriage license issued within the last week to John H. Vanhorn and Mollie Salyers and A. J. Morgan and Mollie Adkins.

Mrs. Jeff. Ramey, of Cat Bridge, was here on business one day last week.

William Albright, of Bear creek, was visiting his parents and the family of William Hughes a day or so of last week.

Ira Elkins, of the Cooksey Fork, of Cat, has removed into our vicinity. Ira is an energetic citizen.

The sickness has about abated but the French measles is reported as being in some parts of our vicinity.

The equinoctial and Easter squalls combined have done up the peaches together with a great many of the trees.

Mack Jones, one of our most enterprising young men, has subscribed for the News, an example that all others who are not already readers of the good old News should follow.

James Compton, one of our most enterprising citizens has put up a much needed blacksmith shop in our vicinity. Jim knows just how, what and when to hit the hammer, too.

Jop. Hulst, an aged and highly respected citizen departed this life on the 19th inst. His remains were interred at the Casey grave yard near here. "Uncle Jop" as he was commonly known, was one of the early pioneers of our county and was greatly loved and will be greatly missed by all who knew him.

Quite a number of citizens from different parts of our vicinity attended the last county court at your place. If our county roads were good in proportion to the amount of noise that is made about them they would be all right.

Give us the News for politics and a Democratic victory in November (which we are sure to have) and we are satisfied.

COUNTRY GREENHORN.

BUCKLE'S ARNICA SALVE.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and skin eruptions, and positively cures piles, or no pay required. It is warranted to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by A. M. Hughes' Louisa, Ky.

A firm of New York carpet manufacturers has created consternation in Great Britain by sending to that country 40,000 rolls of carpet that were offered at rates considerably below those asked for English and Scotch carpets of like grade. The result was an immediate reduction of from 10 to 20 per cent. in the price of the native product, and an order to produce at the mills special grades to compete with the American product. Meanwhile prejudice against American manufactures is industriously sown among the possible British purchasers. And notwithstanding the fact that the manufacturers of this country ship their goods right into the hot-bed of free trade and knock the natives out on prices, an awful howl is raised if a move is made to reduce the tariff on carpets. The goods sent to England were made by labor paid at the magnificent (?) rates of wages which we hear so much about. That proves that the tariff has nothing to do with those wages, and that the only effect it has is to enable the manufacturers to monopolize the business in this country and to extort outrageous prices from the people of the United States for all the carpets used. What excuse can be offered for the difference in prices charged for the carpets shipped to England and the same kind sold by the same makers in this country? Absolutely none. It is nothing more than a system of robbery made possible, fostered and protected by the McKinley end kindred laws. The manufacturers are like the common run of humbug—they take all they can get. The law and not the manufacturers are to blame.

It is generally conceded that President Cleveland will veto the Bond Seigniorage bill.

Mr. Albert Favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says "I contracted a cold early last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I never would get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered with a cough or cold since. I have recommended it to others, and all have said it is '60 cent bottles' by name by A. M. Hughes, Louisa, Ky.

FALLSBURG.

The recent cold spell has in a great measure destroyed the fruit in this vicinity, much to the disappointment of many of our farmers, who anticipated such an early spring.

Married, last week at the residence of the bride's parents, Richard Gaines to Miss Alice Elkins. Rev. Austin, in his genial way making the twain one. A lent was spread and a few choice guests did ample justice to the dainties prepared, and at early twilight, though the incessant rain poured down in furious gusts, a crowd of jolly merry-makers, gathered around his home, with every conceivable article that would make a jingling noise, from a pie pan to a circular saw, and did their part exceedingly well. We wish the happy pair success, and peace and plenty and happiness.

James Albright passed here recently enroute for home after a very pleasant visit to his friend and our distinguished constable W. M. Hughes, of Edmond's Branch.

Born, to the family of Chas. Haven, a bouncing boy. Charley says he is a new man now, for the addition to his family is but an addition to the Democratic ranks.

Times are lively, business good and still increasing. Our merchants, W. M. Cooksey & Bro., say their business is much better.

True we have quite a number of men who want to run for Constable and Magistrate, but for some reason they are all Democrats. And we may add that Bill Savage, Republican wants to be County Judge.

Sorry to say that Maggie Mead, who was thrown from her horse and had an ankle badly hurt, many days ago, is no better.

A political crank, has issued forth in our town, in the person of "Peregrine" to the Ashland Republican who alone takes special delight in reading his articles.

A Plea for the Old Man.

They are building monuments to and celebrating the memory of the mother of Washington. That's all right. But what we want to inquire is, what's the matter with the old man? We mean the gentleman who proposed to have a woodshed interview with George over the cherry-tree incident. Isn't he entitled to some sort of recognition?

The

Electropoise.

Rev. Robert M. Barrett, Baptist Seminary, Louisville, Ky.:—I gladly add my testimonial to that of many witnesses for the Electropoise. Besides other serious troubles, I have cured a severe attack of la grippe in one night's treatment.

Rev. W. W. Bruce, Hustonville, Ky.:—"With the Electropoise I have cured a bad case of opium habit in less than two months' time; the patient now has no desire for the drug."

Editorial from Central Methodist, Catlettsburg, Ky. Rev. Z. Meek, Editor:—"Unless ten thousand men, mainly professional men, lawyers, doctors, editors, preachers and all classes, including the writer, ere very much mistaken, the Electropoise effects cures, gives relief where all other remedies have failed; especially is it efficacious in delicate, feeble women."

Rev. Geo. H. Means, Covington, Ky.:—"In one night's time the Electropoise relieved me of brain congestion and vertigo. My wife was relieved of a severe attack of neuralgia in one hour."

Rev. John L. Rogers, Danville, Ky.:—"A kinswoman of mine who was apparently rapidly sinking into the grave, suffering with asthmatic rheumatism and in extreme pain day and night, in a very short time obtained freedom from all pain, walks without crutch or cane, and declares that she is well. It is a mystery to me, almost a miracle."

Rev. W. F. Wyatt, Morning View, Ky.:—"I began to improve from the first application of the 'wonder working gem'; my general health is better than it has been in years. I believe it to be a God given remedy."

King Deacon and Frank Fugitt were taken before Judge Hise last Friday for examination as to the charges of robbing the wagons of H. H. Hamblitt. They waived examination and were sent to jail to await the action of the grand jury.

We were very sorry to learn of the financial embarrassment of Mr. W. S. Chapman, of Gallup. It is said, however, that his suspension of business will be only temporary, and that an early resumption is assured. He is a good business man and his trouble was caused by a combination of unfortunate circumstances.

Last Monday was the beginning of the second month of the Louisa Normal School, and several new pupils matriculated. The school is a decided success and we hope to see it grow into a permanent institution. Louisa is indisputably a good point for a regular high school, and we think there will no longer be any trouble about cheap boarding.

Col. Northrup has planted about 1500 peach trees this season on the hill-sides of some of his land above here. For the purpose of testing he has planted them on expositions at all points of the compass. He will continue to plant out trees two, three seasons and expects to put out a total of 9999. In the way of small fruits he has an acre of strawberry vines and a good many raspberries.

We had the following very complimentary notice of Mr. R. T. Burns to the Pikeville Monitor of last week. The case referred to was that of Bowles Belcher, charged with complicity in the murder of Dick Hall.

"R. T. Burns of Louisa was the first Atty. for the defense that spoke, and he made a noble and manly effort to explain the law and evidence to the jury. Mr. Burns made the effort of his life in this speech and was considered by all who heard him as being one of the finest and most eloquent lawyers that they ever heard fall from the lips of a man. We would have given his speech at length had we known exactly when the speaker was going to begin. But before we could get a reporter to write for us, he was silent."

The four weeks of fine weather tempted many gardeners to sow and the product of their labor was "hopped in the bud" by the severe snap Sunday and Monday. If you saw your seed to come, now, you will see it.

tobacco raising.

In our next issue we shall resume the publication of the articles on tobacco raising. The next article relates to planting the tobacco, which is to be done in May.

A considerable acreage of Lawrence county lands is being prepared for a tobacco crop this year, but there is yet time and room for additions. Most of those who have tobacco lands will have plants to sell, and there are numbers of farmers who will do well to get a supply and give the business a trial.

We want to see the matter tested by various localities and upon a scale large enough to prove something.

Recently we had a long conversation with a tobacco grower from Mason county who has made a good deal of money out of the business. He has been in this vicinity twelve years and has closely investigated the soil and prospects and is enthusiastic over the outlook. He says our farmers have splendid opportunities on every hand for doing well, and that enterprise and improved methods of farming, different crops, and specialties of certain products, will certainly give them each a bank account. But they must get out of the old ruts which their fathers made. Their plans may have been good enough in their day, but conditions are constantly changing and a farmer must progress and keep up with the procession as well as the man in any other kind of business. Also, the farmer is required to work just as persistently as other business men. A merchant works fourteen hours a day for 315 days in a year. Some farmers work half the year, or whenever it is neither too hot nor too cold; and the result is that they get only half pay, and the merchant finally gets that. The other half which the farmer didn't get represents his profits. It rests with him whether or not he will get it.

But to return to tobacco raising. The gentleman said he once sold a ten-acre crop of tobacco for \$1,130 cash, and that the amount represented a profit to him for that year, he having raised sufficient of other products to defray all expenses of the farm. He had a farm of 100 acres which he bought on a credit at a big price and paid for in money made from tobacco raising. Of course the returns from the crop mentioned above were unusually large, but suppose our farmers should get one-fifth of that amount in cash for ten-acre crop, would it not be much better than they are now doing? Just figure enough to see how much a acre of corn or wheat will bring you.

Give it a trial. Go to work with a will and a determination to not let up until the "hand" is carefully called and graded.

Accidental Shooting.

Millard Wallace, aged about 15 years, son of John Wallace, of Elkford, accidentally shot himself last Saturday while "fooling" with a pistol. He was attempting to drive a cartridge shell from one of the chambers of the cylinder, while the hammer was resting upon a cartridge. The jar was sufficient to explode the cartridge and the ball took effect about an inch below his eye, ranging slightly upward. The revolver was a 22-calibre. The ball has not been removed and it is not yet known whether the wound is likely to endanger his life or not.

Fatal Fracas.

At Fleming, Wayne county, W. Va., a few days ago, Henry Collins and Hoke Napier, neighbors and young men, quarreled. The latter wanted to pass through the former's place with timber, and Collins refused him the privilege. When Napier heard this he was offended, and the two met, and after some words, pulled revolvers and began shooting.

A dozen shots were fired. Collins' heart was pierced by a bullet and he died instantly. Napier was shot in the bowels and lived but two hours.

Both men leave families.

and good food in plenty, tends to make children healthy. If children suffer, however, from Scrophulous, Skin or Bowel Diseases, if their blood is impure and impure blood appears, they should be given the right medicine. Dr. Pierce's Golden Medical Discovery cures the blood and makes it pure. It purifies the blood and renders the liver active as well as building up health and strength. Many of the weak children get a leading benefit and a good start from the use of the "Discovery." It puts on wholesome flesh, and does not nauseate or offend the stomach. The Canning Factory.

The agents who were here trying to establish a canning factory left Monday, having abandoned the effort for the present. They declared their intention of returning in the fall, however. By that time they think the community will be ripe for the enterprise. The question with many of our citizens is whether it is better to give the contract for the building to a foreign company or to erect that ourselves.

We think the matter of whether or not the people want a canning factory has been fully settled by the investigation and discussion. All are unanimous for it. Let the interest be kept up and preparation be made for putting the industry on foot and in full blast for next season. There is no doubt about it being the largest enterprise in sight for the least money.
